Team Charter

Team Name: StyleSync, Group 11

Who are the members of the team?

Name	ID	Email:
Angad Singh Bains	A01371850	abains101@my.bcit.ca
Charley Liao	A00969849	cliao32@my.bcit.ca
Matilda Kim	A01390906	ckim170@my.bcit.ca
Misha Makaroff	A00776238	mmakaroff@my.bcit.ca
Matthew Chow	A1079116	mchow123@my.bcit.ca
Tanish Bansal	A01386160	tbansal7@my.bcit.ca

How often will the team communicate?
    Everyday

How will you communicate?
    On the Discord group chat

What are the three user stories?

    First Use Case:
        As an...
            - Application User,
        I want to...
            - Have a closet inventory,
        So that...
            - I can keep an inventory of what articles of clothing I have in my
              closet and not need to repurchase everything.
        Acceptance Criteria:
            - Inventory List of Clothing in Personal Closet
            - Ability to Upload and Delete Clothing

Second Use Case:
  As an...
    - Application User,
  I want to...
    - filter my wardrobe by clothing article categories,
  So that...
    - I can quickly see what types of clothing I own.
  Acceptance Criteria:
    - Filter button that allows filtering of item clothing based on categories created for the database.

Third Use Case:
  As an...
    - Application User,
  I want to...
    - create a customized outfit of existing articles of clothing in my wardrobe,
  So that...
    - I can experiment with different combinations and styles of my outfits without physically trying them on.
  Acceptance Criteria:
    - User should be able to customize and create an outfit in the "Create Outfit" page of the application.
    - Able to select multiple clothing articles from their wardrobe to include into the outfit.

What are the ground rules for working together?
  Be respectful, keep in touch, be punctual.

How will meetings be managed?
  We will have weekly stand-up meetings.

How will the team make decisions?
  Have open communication and vote on ideas.

What resources will the team need and use?
  GitHub, Google Docs, Discord, Trello, VSCode, Office 365 Suite

What is your team's SCRUM Board URL?
  https://trello.com/b/1mUNLyaH/stylesync-group-11-acit-2911-agile

What is your GitHub Repository URL?
  https://github.com/inspiritilda/StyleSync.git

Team SWOT Analysis

Name 1: Angad Singh Bains

Strengths	Creative, Critical thinking, Logical reasoning
Weaknesses	Slow at working
Opportunities	Have some experience with coding
Threats	Easily distracted

Name 2: Charley Liao

Strengths	Strong Arithmetic and Algebraic Abilities Information Gathering and Research Project Management and Leadership Logical Thinker in Developing Quick Solutions
Weaknesses	Relatively New to Coding Impatient
Opportunities	Self-Projects to Practice Coding Working in a silent location and use noise cancelling headphones to prevent distractions during personal work
Threats	Easily Distracted and Influenced by Surroundings

Name 3: Matilda Kim

Strengths	Punctual, organized, attention-to-detail
Weaknesses	Lack patience
Opportunities	Practice coding outside of school
Threats	Still new to programming/ coding

Name 4: Misha Makaroff

Strengths	Good listener, effective feedback
Weaknesses	Occasional procrastination
Opportunities	Additional coding resources, scheduling resources
Threats	Outside responsibilities

Name 5: Matthew Chow

Strengths	Creative thinking, listener
Weaknesses	Below average coding skills
Opportunities	Learn better coding skills, presentation skills
Threats	Getting stuck and Job responsibilities

Name 6: Tanish Bansal

Strengths	Great Coding Skills, Critical Thinking
Weaknesses	Slack on Timelines
Opportunities	Work on my professional writing skills
Threats	Can increase the project scope
